

Auto Focus Video Microscope VM-500Plus

- ▶ Integral design, exquisite, fashion, generous
- ▶ With 2 million pixel auto focus camera, no need to waste time for manual focus frequently
- ▶ With adjustable LED surface reflection illumination, is able to control brightness independently
- ▶ With high definition 0.7~4.5X parallel continue zoom lens, it is more convenient and fast to switch objective magnification
- ▶ Built-in FULL HD sensor and VGA integrated camera, can directly connect with the monitor to realize video image and can also use SD card to take picture or record video, which integrate video observation and image storage

Specification

Electronic Magnification	32X~206X(VGA 4:3 21"Monitor ;)
Optical Objective	0.7X~4.5X Horizontal Zoom Lens
	Zoom ratio : 6.5:1
	0.5X C-mount Camera Adapter
Camera Parameters	2 million pixel (1920*1080)
	Image Size:1/2.86"
	Frames Per Second : 30fps
Camera Function	Auto Focus
	Cross Line
	Photograph and Video Record
	Output: HDMI
	White Balance; Brightness Control; Digital Noise Reduction
Illumination	Surface: Adjustable LED Surface Illumination
	Ring Fiber Illumination Optional
Microscope Stand	Z-axis Travel: 100mm
	Coarse Lifting System
Electrical Parameters	AC90~240V;50~60HZ
Dimension	310*285*500 mm
Weight	6 Kg
