

Hexagon-3D Scanners

PrimeScan Simple and precise optical 3D

The PrimeScan optical 3D scanner line from Hexagon is an attractive entry-level solution for highly precise 3D digitisation of industrial components. Like other Hexagon structured light scanner models, the PrimeScan is based on fringe projection technology that provides the strongest luminous power and highest projection quality.

SmartScan The compact and mobile 3D

Fast and highly accurate, the SmartScan optical 3D scanner is among the leading measurement solutions for complex surface geometries and fragile or deformable parts where portability is a necessity.

StereoScan Neo The new benchmark in optical

As an unrivalled high-end structured light scanning system, the StereoScan neo delivers superior resolution and accuracy alongside an array of innovative features that make area scanning more comprehensive than ever before.
